

This ring sizing ribbon can be printed and cut out to help determine the correct ring size you may need.

Tips:

- Please pull the ribbon to be the same firmness on your finger as you would expect your ring to be.
- We suggest that you leave it slightly loose, so that the ribbon can still be turned with slight ease.
- Once you have cut the sizing ribbon out, just place it around the finger you are buying the ring for and note what size the star end finishes on.

* Please note that each printer will print differently and that this ribbon should be approximately 8 centimeters in length or 3.15 inches. However, please remember this is only a guide.
